

# SAN BENEDETTO

DRINK IT - TASTE IT - DIGEST IT

## **SODIUM FREE MINERAL WATER**

San Benedetto is now one of Italy's largest producers of mineral water, sparkling and still drinks, as well as tea and fruit-based beverages.

San Benedetto is an elite, low sodium, mineral delicacy that carries a 30mg/L of Magnesium. Magnesium is the fourth most abundant mineral in the body and is essential to good health.

San Benedetto ~ Italy's Finest has based its own growth on technological innovation thanks to massive investments. Today it has one of the biggest bottling plants in the world.

It is not surprising that this company was the first one in the sector to believe in the launching and development of containers in PET - a healthy and recyclable material. Today San Benedetto is one of the main producers of PET containers in the world.

The company has lately developed the HACCP system of control which permits better performances as far as the quality standard is concerned.

San Benedetto's lines are healthy, refreshing and relaxing!!

**The more you drink it the more it renews you!**
